Number of years of experience

ESG at the Core of Dukhan Bank's Strategy

Dukhan Bank's Sustainability Strategy

Dukhan Bank's Environmental, Social and Governance (ESG) strategy embeds sustainability into its core banking activities, in alignment with Qatar Central Bank expectations, Islamic finance principles and the Bank's business objectives.

Together with the Bank's ESG Policy and Sustainable Finance Framework, it is built around three pillars: Motivate Impact , Secure Partnerships, & Reliable Governance. These pillars guide the Bank's approach to climate action, responsible finance, inclusion, customer and community outcomes, as well as strong governance and risk management.

Informed by a double materiality assessment, the strategy sets a clear and practical direction for progressive ESG integration across operations and activities, ensuring regulatory alignment and supporting sustainable long-term growth.

Motivate Impact

Embedding climate action, resource efficiency and responsible finance and investment into the products and services we provide

- Climate Strategy and Climate Risk
- Environmental Management and Resource Efficiency
- ESG Integration in Financing Activities
- ESG Integration in Investment Activities
- Sustainable Products and Services

Secure Partnerships

Building partnerships that enable inclusive growth, fair customer outcomes, a strong and diverse workforce, and lasting community impact

- Financial Inclusion, Access & Affordability (incl. SMEs)
- Customer Protection, Fair Treatment & Experience
- Human Capital, Wellbeing & Working Conditions
- Diversity, Equity, Inclusion & Nationalisation
- Community Engagement, Investment & Social Impact

Reliable Governance

Embedding strong corporate and Shari'ah governance to support long term performance

- Corporate & Shari'ah Governance, Board Oversight & Transparency
- Ethics, Integrity, and Compliance
- Anti-money Laundering
- Risk Management and Resilience
- Data Privacy, Cybersecurity & Responsible Digital Innovation
- Responsible Procurement & Value Chain

Bank Strategy focuses on Customer Partnerships & Shareholder Value

Dukhan Bank – Strong Credit Rating Profile

Upgraded from A- to A by Fitch in March 2024 by Fitch

Fitch Ratings

LT Issuer Default Rating: A (Negative)

10 September 2026

- Strong Government Support: Qatari authorities have a strong propensity to support domestic banks, irrespective of their size or ownership
- The bank's common equity Tier 1 (CET1) ratio compares well with most peers' and is comfortably above its minimum regulatory requirement
- Stable Funding Profile: The bank's gross financing/deposits ratio captures its moderate reliance on non-deposit funding.

Moody's

LT Bank Deposits Rating: A2 (Outlook Stable)

29 June 2026

- The deposit ratings incorporate a very high probability of support from the Government of Qatar
- Reflects solid domestic franchise, stable profitability and strong capital metrics
- The stable outlook on Dukhan's long-term deposit ratings reflects expectation that the bank will maintain its current strong capital levels, its funding and liquidity profile broadly stable.

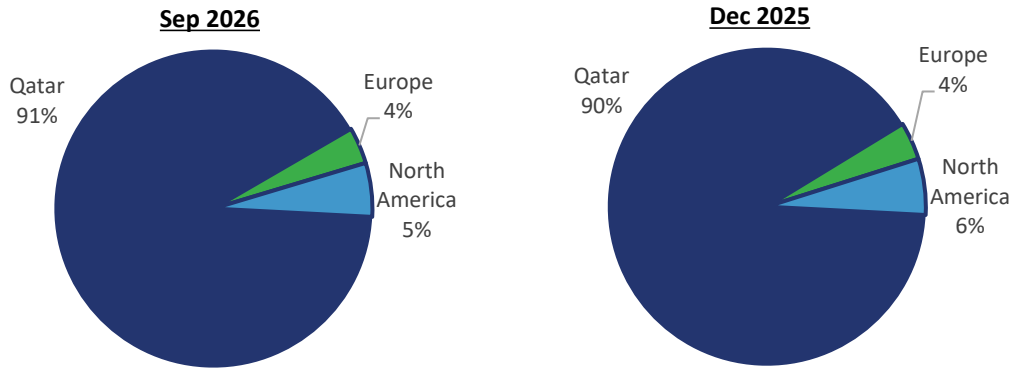
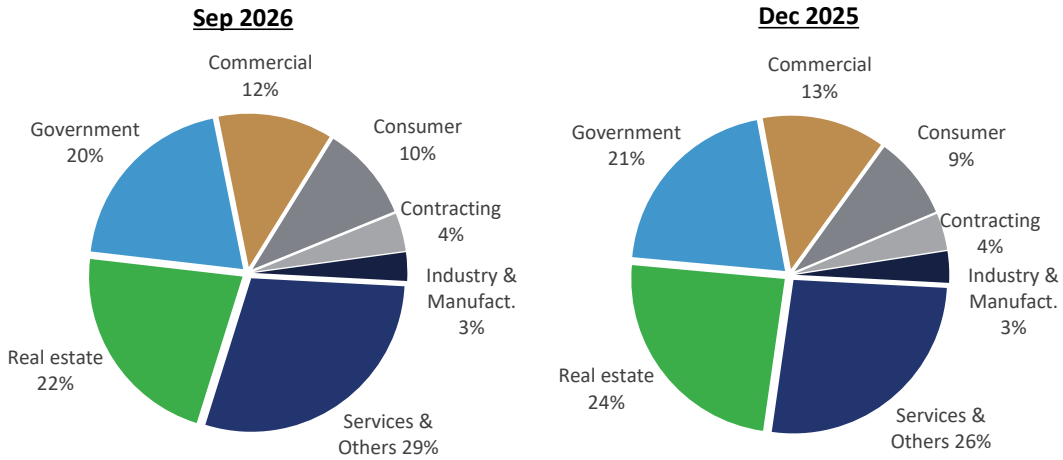
Breakdown of financing assets, Sep 2026 vs Dec 2025

By geography



By sector (gross financing before def. profits)[1]



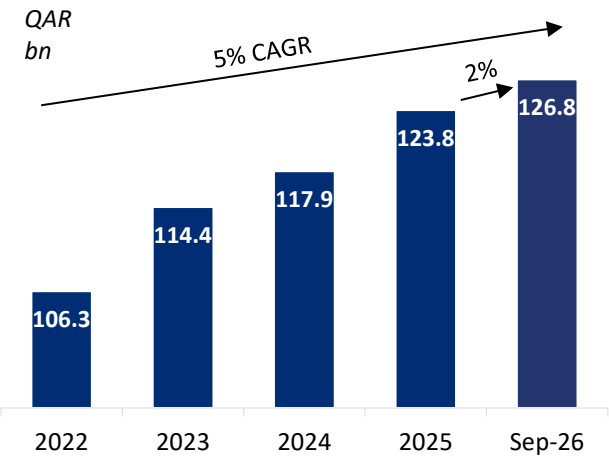
Note: All financial data as of 30 Sep 2026

(1) GRE exposures accounted for 15% of the total financing book as of September 2026 (Dec 2025: 17%). These exposures are currently reported within their respective sector classifications.

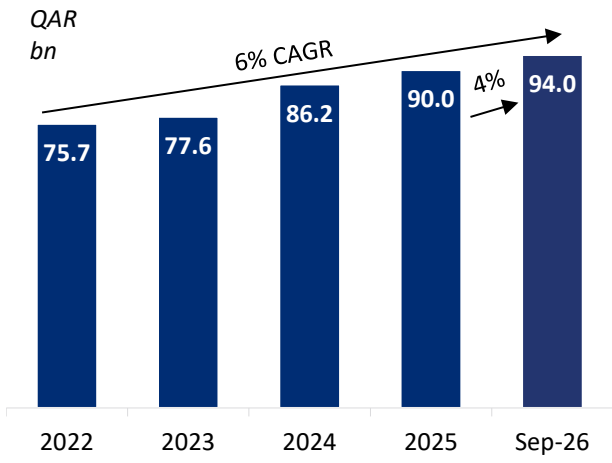
Financials – Dukhan has Consistently Outperformed the Market

Continuous strong growth under Assets and Income streams

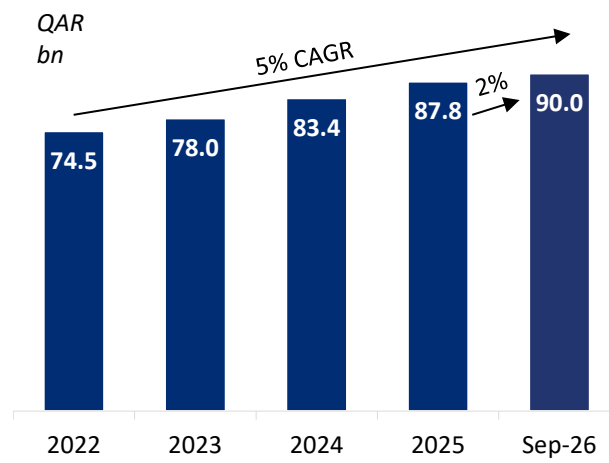
Total assets



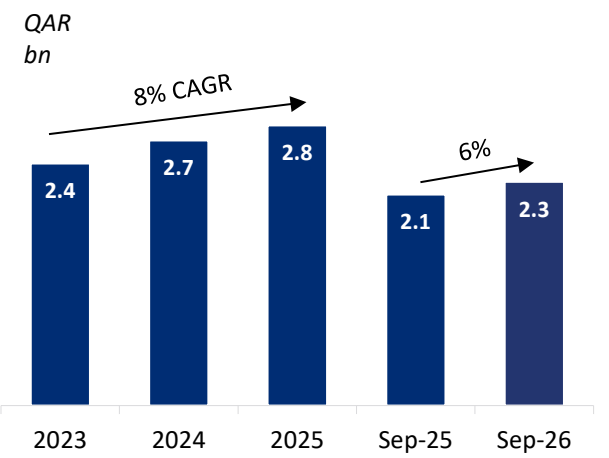
Net financing assets



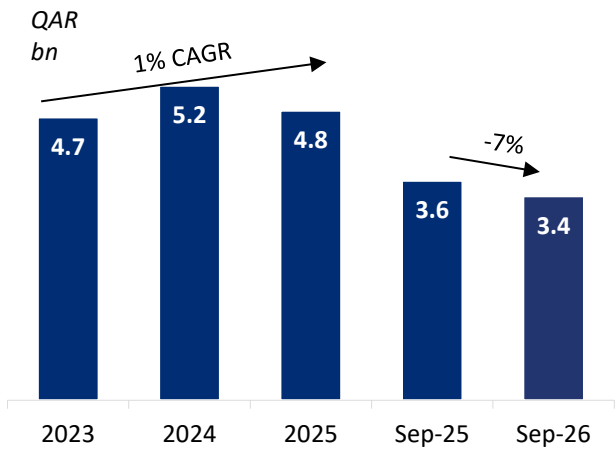
Customer deposits [1]



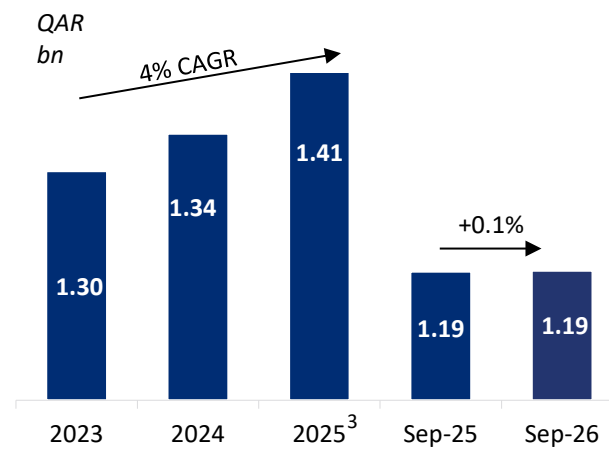
Net Banking income[2]



Financing income



Net profit



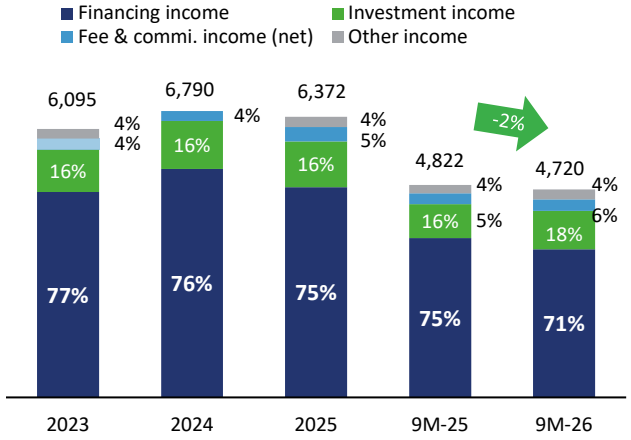
(1) Deposits represents the sum of customer current accounts and URIAs
(2) This is a non-IFRS measure, calculated by deducting 'Net profit attributable to quasi-equity' from the 'Total income' as reported in the published income statement
(3) Net profit for FY 2025 is reported before the effect of Pillar 2 tax. Net profit for FY 2025 after the effect of Pillar tax amounted to QR 1.26 billion.

Profitability

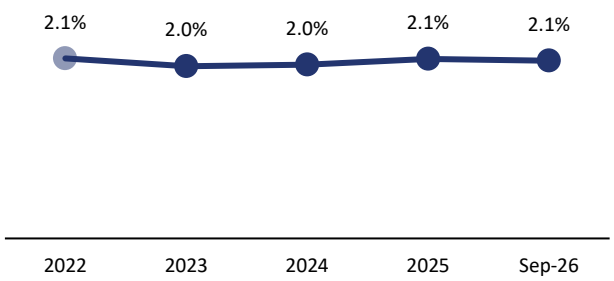
Dukhan Bank is an efficient business with diversified income sources and robust net profit margin

Constantly growing revenue base across diverse income streams…

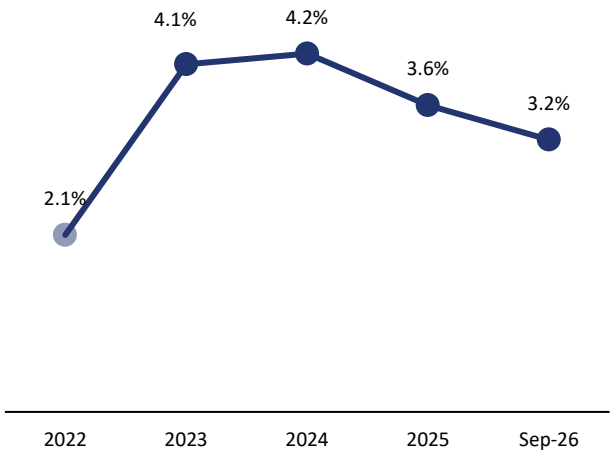
Total income[3] breakdown (in QAR'mn)



…with a relatively healthy net profit margin[1] despite challenging macro environment…

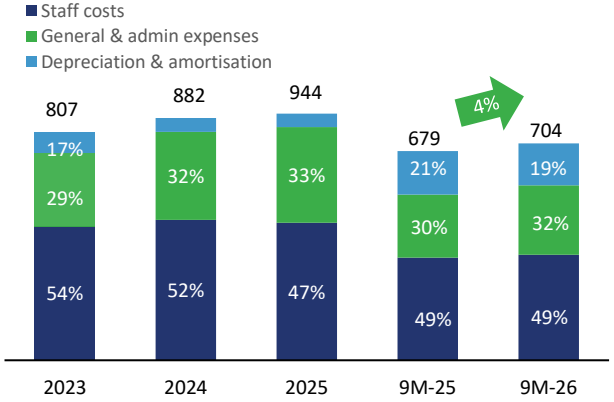


…stabilising funding costs[2] relative to the market…



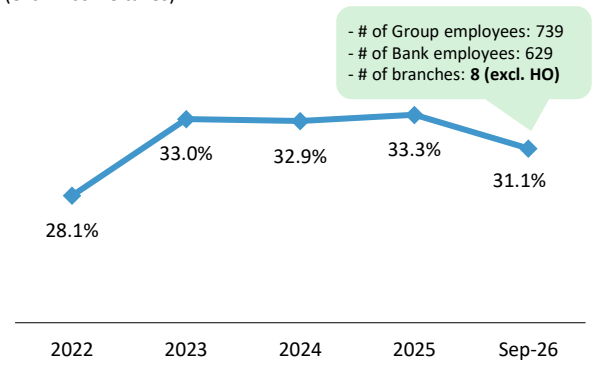
…Disciplined cost management…

Breakdown of operating expenses (in QAR'mn)

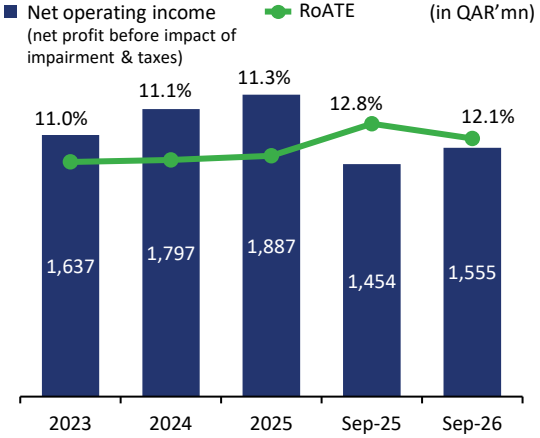


…gradually generating efficiency gains…

Cost / income ratio
(excl. income taxes)



…and improving operating leverage



(1) Net profit margin (NIM) = (Net profit income from financing and investing income less finance cost and return to URIA a/c holders; annualized for full year) / Average earnings assets
(2) Funding costs % : (Finance cost and return to URIA a/c holders; annualized for full year) / Average interbank borrowings and customer deposits
(3) Excl. finance cost. In consolidated FS, the same is reduced to arrive at total income
(4) Return on Average Tangible Equity (RoTE) : Net profit for the year over average equity excluding intangible assets. RoTE for FY 2025 is calculated using net profit before the effect of Pillar 2 tax. RoTE for 9M 2026 & 9M 2025 is annualized based on the quarterly performance, actual RoTE and RoTA for the full financial year varies

Asset Quality

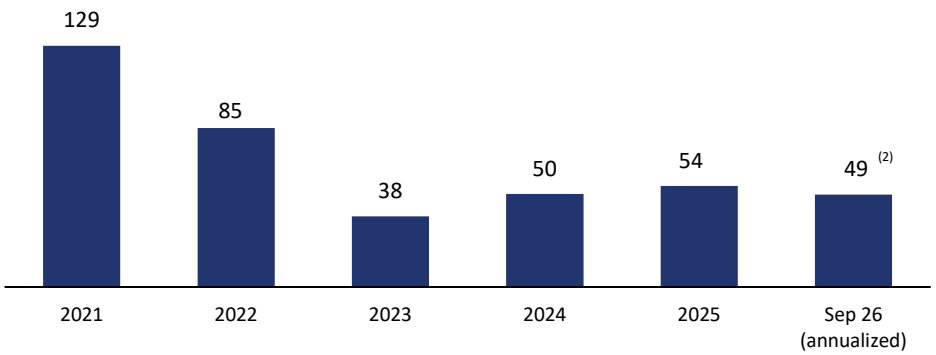
Strong risk-management culture and prudent provisioning policy

Commentary

- Considering the global economic circumstances, Dukhan Bank has shown resilience
- The Bank has been closely monitoring its risk profile and exposures, in accordance with AAOIFI/IFRS and QCB guidelines
- Dukhan Bank's prudent risk management continues to monitor asset quality and take prudent impairments
  - NPL ratio reduced to **3.8%** in September 2026 compared to 4.2% in December 2025
  - Provision coverage improved to **78.5%**, from December 2025 through Sep 2026. Provision coverage is 101% after considering tangible collateral benefits (with the effect of hair-cut on the collaterals)

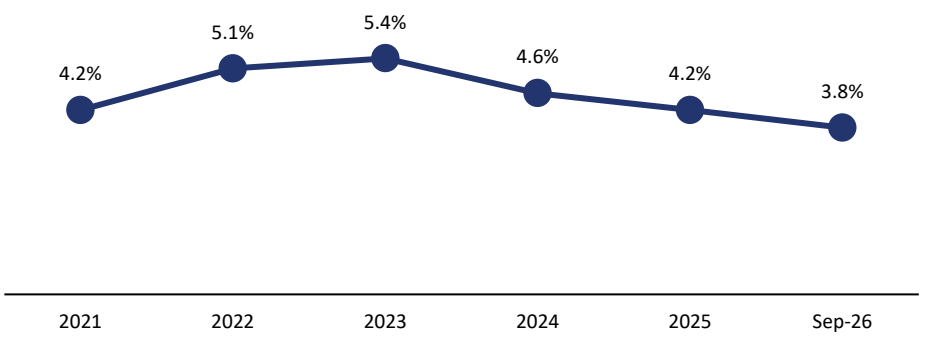
Prudent risk management…

Cost of risk[1] (in bps) – net impairment charge over average net financing assets



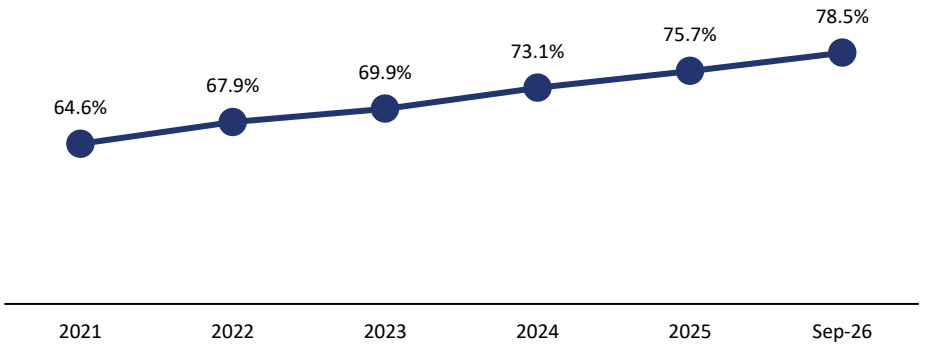
…active management of non-performing assets…

Non-performing asset ratio



…while maintaining sound coverage levels

Provision coverage ratio[3] excl. collaterals



(1) Cost of Risk is calculated as net impairment charge related to ECL & specific provisions on Loans & Advances over Average Gross Loans
(2) 9M 2026 cost of risk (annualized) is reported after considering the cash recoveries, if cash recoveries are ignored the same increased to 58bps
(3) Coverage ratio is calculated as impairment allowance over gross exposures subject to ECL/specific provision

Asset Quality (continued)

Prudent overall coverage with staging aligned with the Qatari Banking Sector

Portfolio Breakup
