FUND PERFORMANCE

In January, the Fund decreased by c.0.4% MoM. The Fund is up by c.38.7% since inception (31st of October 2012), and down c.0.4% Year-to-Date while focusing primarily on capital preservation. Assets under management stood at QAR11m of end of January 2020.

We advocate the quality style comprising high growth, defensive earnings, high dividend yield and low debt / equity in the mid-large cap part of the market while actively managing beta. We believe, macro policy changes, liquidity, commodity prices and growth expectations will remain key drivers of risky asset prices. The Fund is suitable only for investors who fully understand and who can bear the risks of such a high risk investment for an indefinite period and who can afford a total loss of their investment.
